

OPERATIONS DIRECTORATE SUPPORT OFFICERS' MEETING

6 February 1974

- 25X1A 1. Mr. [REDACTED] discussed the trends and highlights in the Office of Logistics.
- 25X1A 2. Dr. [REDACTED] will be the next lecturer in the CIA Guest Speaker Program in the Headquarters Auditorium on Tuesday, 12 February 1974, from 4 to 6 p.m. He will speak on "The Future of Space Exploration and the Uses of Space Technology."
- 25X1A Dr. [REDACTED] will speak the following month. The subject will be "The Frontiers of Physical Sciences."
3. Non-Official Cover Affairs. Last summer the Administrative Allowance Committee granted across-the-board percentage increases in the allowances of NOC personnel serving in cities where the value of the U.S. dollar had diminished as a result of inflation or the devaluation in February 1973. Now, however, the dollar has recovered, the trend of the Department of State indices has been reversed, and the official allowances at certain posts are being decreased. It is possible that the NOC allowances may also be decreased to reflect this change in purchasing power. We will keep you posted.
- 25X1C 4. Gasoline Shortage. We have had inquiries concerning the possibility of obtaining gasoline from official sources when it is to be used for official purposes. OL is conducting a study of this, but it appears that we will not be able to provide gasoline to personal [REDACTED] cars from GSA stocks, or from other official sources. Please keep us advised of your problems in this area. In the meantime, consider the use of taxis, rented cars where necessary, or other alternate means of transportation.
5. Parking. Nothing to add to earlier comments. The Management Committee has not yet decided what it will recommend to the DCI. The new procedures will be developed and published as soon as parking guidelines are established.
